ABOUT ME

Creative Front-end developer with knowledge of **React.js**. Have analytical skills, so quick and independent decision-making is my thing. I can organize and plan work on time and use every minute to my advantage. I take my job very seriously and can work both individually and in a team. The ability to communicate with people of all ages and backgrounds provides me with quality relationships with colleagues. I may not be that experienced, but I am someone you will want to meet and work with. Passion for self-improvement, professional development and growth helps me find myself in any circle. I love learning new things and broadening my horizons.

TARGET

Getting a permanent job in your company. To work honestly and conscientiously in accordance with the objectives of the company to achieve the set goals.

PERSONAL PROJECTS

New Navat

Tech stack: HTML, CSS, JavaScript, jQuery

Description: Multilingual site of the new, sensational, fifth point of Teahouse Navat, which is located in the city of Almaty. Website is unusual in that each page block is the same size, allowing for the benefits of snap scrolling.

<https://newnavat.netlify.app>

Midas Event

Tech stack: HTML, CSS, JavaScript, jQuery

Description: A company that organizes various kinds of events. Famous for the organization of the show program in the "NEBO" and the concert of Irina Kairatovna. Each part of the site has its own unusual animation.

<https://midasevent.kz>

"ЧЕК МАРКЕТ"

Tech stack: Next.js

Description: Multi-page site written in next.js. The hardest part of this site is the large number of modals and forms. This company is engaged in consultations, design, sale of equipment, installation and adjustment of security systems, warranty and post-warranty service, technical support.

<https://github.com/zhassulaan/check-market>

"Альпинист Товаров"

Tech stack: React.js

Description: The Alpinist-Products online store, known as yaq, is a network of multi-brand sports stores offering equipment for outdoor activities, hiking, trekking, skyrunning, running and other sports and outdoor activities. The React framework was used to implement this site. This project has a rather complex filtering point where the user can search for goods by category, by color, by gender, by size, by type, and sort the goods as they wish.

<https://github.com/zhassulaan/yaq>

Portfolio

Tech stack: HTML, CSS, JavaScript, jQuery

Description: Portfolio web-page that introduces me. This project is made to show my abilities and information, such as education, skills and work experience. Thanks to this page, you don't have to download a PDF file and read boring text on one text file.
