ABOUT ME

Dynamic and creative Web developer with expertise in Vue.js (Nuxt.js) and React.js (Next.js), Django.py. I possess strong analytical skills, enabling me to make quick and independent decisions. I am deeply committed to my work, capable of thriving both as a self-starter and a collaborative team player. Passion for self-improvement, professional development and personal growth helps me find myself in any circle. I embrace new challenges and actively seek to broaden my horizons.

TARGET

To secure a long-term position within your esteemed organization, leveraging my skills and dedication to align with the company's objectives and contribute to the achievement of its goals.

Zhassulan Serikuly

Middle Web Developer

EXPERIENCE

TOO «KacXIM»

April, 2021 - August, 2021 / 5 months Atyrau, Kazakhstan

Role: Software Engineer

Tech stack: JavaScript, HTML, CSS, Figma

Responsibilities: Preparing responsive front-end interfaces using HTML, CSS, and JavaScript. Converting design mockups into high-quality code. Developing supporting code for web apps. Participating in daily stand-up meetings and workshops. Computer diagnostics to investigate issues, as well as to provide technical assistance and support.

Recommendation from my boss

«Athena Plus»

September, 2021 - May, 2022 / 9 months Almaty, Kazakhstan

Role: Frontend Developer

Tech stack: React.js, Next.js, Redux, Styled components, HTML, CSS, AdobePS

Responsibilities: Creating logos and animations for websites, contributing to the overall visual branding and UX. Developing and implementing reusable code components for our clients projects, ensuring functionality and optimal performance. Utilizing JavaScript framework (React, Next) to implement user interface designs. Binding scripts to the user interface that provide visualization and animation of the site pages. Establishing smooth integration between the frontend and backend systems of the website.

Recommendation from my boss

ALUX «A - LUX»

May, 2022 - August, 2022 / 4 months Almaty, Kazakhstan

Role: Frontend Developer

Tech stack: Nuxt.js, Vue.js, SCSS, CSS, TypeScript

Responsibilities: Led the front-end development of new projects and played a key role in the modernization of existing projects. Creating visually appealing web pages based on design layouts to optimize User Interface and Experience. Cooperation with Backend Developers for smooth merge of backend systems, facilitating seamless data exchange between two components. Implementing internationalization (i18n) tools to support customization of user interfaces and content in different languages, making it easier to localize apps.

KeyHorse «Key Horse»

June, 2022 - Present Almaty, Kazakhstan

Role: Full-stack Developer

Tech stack: Vue.js, Vuex, Django.py, PostgreSQL, HTML, CSS, Docker

Responsibilities: Working with microservices and libraries to enhance the scalability and modularity of the service architecture. Played a pivotal role in the end-to-end development of multiple internal projects and company tools. Adding and implementing new utility features to optimize functionality and improve the overall performance of the service. Creating APIs for a diverse range of forms, catalogs and interactive components, enriching user experiences and enabling smooth data exchange. Identifying and resolving errors / bugs during the layout phase, resulting in a consistent user interface.
