ABOUT ME

Dynamic and creative Full-stack developer with expertise in Vue.js (Nuxt.js) and React.js (Next.js), Django.py. I possess strong analytical skills, enabling me to make quick and independent decisions. I am deeply committed to my work, capable of thriving both as a self-starter and a collaborative team player. Passion for self-improvement, professional development and personal growth helps me find myself in any circle. I embrace new challenges and actively seek to broaden my horizons.

TARGET

To secure a long-term position within your esteemed organization, leveraging my skills and dedication to align with the company's objectives and contribute to the achievement of its goals.

EXPERIENCE

ТОО «КасХИМ»
June, 2021 – August, 2021 / 3 months — Atyrau, Kazakhstan

Role: IT Specialist

Responsibilities: Computer diagnostics to investigate issues, as well as to provide technical assistance and support. Fixing problems related to the computer software and hardware operation. Experience with social media and communication platforms.

Recommendation from my boss

TechnoPark SDU
September, 2021 – February, 2022 / 6 months — Almaty, Kazakhstan

Role: Frontend Developer

Tech stack: JavaScript, HTML, CSS, Figma

Responsibilities: Developing and implementing supporting code for web applications and websites, ensuring functionality and optimal performance. Creating visually appealing web pages based on design layouts to optimize User Interface and Experience. Binding scripts to the user interface that provide visualization and animation of the site pages. Providing the required level of UI and UX.

«Athena Plus»
August, 2022 – December, 2022 / 5 months — Almaty, Kazakhstan

Role: Frontend Developer

Tech stack: React.js, Next.js, Redux, Styled components, HTML, CSS

Responsibilities: Led the front-end development of new projects and played a key role in the modernization of existing projects. Utilizing JavaScript framework (React, Next) to implement user interface designs, resulting in the delivery of intuitive web applications. Optimizing UI/UX functionality by developing reusable code components. Creating logos and animations for websites, contributing to the overall visual branding and UX. Establishing smooth integration between the frontend and backend systems of the website.

Recommendation from my boss

«A - Lux»
April, 2023 – July, 2023 / 4 months — Almaty, Kazakhstan

Role: Frontend Developer

Tech stack: Nuxt.js, Vue.js, SCSS, CSS, TypeScript

Responsibilities: Developing responsive and interactive websites and applications for our clients. Converting design mockups into high-quality code using JavaScript and TypeScript. Cooperation with Backend Developers for smooth merge of backend systems, facilitating seamless data exchange between two components. Implementing internationalization (i18n) tools to support customization of user interfaces and content in different languages, making it easier to localize apps.

«Key Horse»
January, 2023 – Present — Almaty, Kazakhstan

Role: Full-stack Developer

Tech stack: Vue.js, Vuex, Django.py, HTML, CSS

Responsibilities: Working with microservices and libraries to enhance the scalability and modularity of the service architecture. Developing internal projects and company tools. Adding and implementing new utility features to optimize functionality and improve the overall performance of the service. Writing APIs for a variety list of forms, catalogs and more. Identifying and resolving errors / bugs during the layout phase, resulting in a consistent user interface.

Internship

«Unistory LLC»
December, 2022 — Almaty, Kazakhstan

Description: Creating an application on React.ts, with the connection of a crypto wallet (Metamask), enabling users to securely manage their cryptocurrency assets and the output of information from the backend.

«Interteach»
January, 2023 — Almaty, Kazakhstan

Description: Preparation of a new and modern design for company websites on the Figma application. Implementing this design with react. Demonstrating data from API with redux.
